N

N. Read the passage and answer the questions.

You know how important your heart is, so it's no wonder to worry when they hear someone has heart problem. Heart disease mainly affects older people and means that there are problems with the heart and blood vessels. More than ۶۰ million Americans have some forms of it. This disease includes a variety of problems, including high blood pressure, hardening of the arteries, chest pain, hear attacks, and stroke.

The heart is the center of cardiovascular system. Through the body's blood vessels, heart pumps blood to all of the body's cell. The blood carries oxygen, which the cells need. Heart disease is a group of problems that occur when the heart and blood vessels aren't working the way they should.

Heart disease isn't contagious- you can't catch it like you can catch the flu or cold. Instead certain things increase a person's chances of getting heart disease. Doctors call these things risk factors. Some of these risk factors a person can't do anything about, like being older and having other people in the family who have had the same problem. But people do have control over some risk factors- smoking, having high blood pressure, being overweight, and not exercising can increase the risk of getting heart disease.

۳۸. The passage answers all of the following questions **except**
- a) How do you get heart disease? b) What is heart disease?
 c) How is hard disease cured? d) Who is at risk for heart disease?

۳۹. For which of the following words does the writer provide a definition?
- a) Stroke b) Contagious c) Artery d) Overweight

۴۰. Which of the following sentences is **not** true according to the passage?
- a) High blood pressure is also a form of heart disease.
 b) Older people are at greater risk for heart disease.
 c) Flu and cold are contagious.
 d) Exercising can increase the risk of getting heart disease.

۴۱. If the cardiovascular system doesn't work properly,
- a) the number of blood cells increases b) risk factors increase rapidly
 c) cells can't get enough oxygen d) blood vessels start to get higher
