As humans, we develop habits and we follow them in life. Many of our habits are healthy, but most of us, also have a number of unhealthy habits. It is necessary that we try to take good habits or change unhealthy habits to better ones. One of the most important healthy habits is to follow a balanced diet each day. Eat a medium-sized breakfast, followed by a light lunch and dinner. Eat a lot of nuts, seeds and fresh fruits and vegetables between your meals. Drink plenty of water and cut down on foods high in cholesterol, fats and sugars. Do not eat a lot, and eat only when you are hungry, never because you are bored, sad or stressed. .A regular, balanced diet is important to your physical health.

Many doctors say we should keep the same sleep program ٧ days a week. Sleep in a dark room without disturbing sounds such as music or other noise. If you often have difficulty going to sleep, ask your doctor about other ways to relax before bedtime.

The human body needs regular exercise for health, but many people do not get enough exercise. Regular good exercise can help prevent diseases, such as high blood pressure.

When life gets difficult many people do not know how to control their stress. Taking and laughing with friends, watching a movie, taking a nature walk, reading a book or playing a game can all help reduce stress levels.
